HOW TO USE YOUR DR. SCHOLL'S EXPRESS PEDI™ FOOT SMOOTHER

1 To begin, make sure feet are clean and dry. Simply turn the unit on by pressing the safety lock (white button) in the center while pushing the switch up.

2 Using light but firm pressure, rotate the roller back and forth over the affected area.

HOW TO REPLACE YOUR ROLLER

1 For optimal results, change your roller every **60-90 days**, depending on use. To switch out the roller, turn the unit to the OFF position

2 Push down on the Roller Release button found on the side of the unit

3 Slide the new roller in the unit until you hear a click. Check that the roller has been installed firmly with no loose parts.

4 Once the roller is in place, get ready to smooth your skin again.
